Hobbies/Interests

More Details at big-b.net/BHewingMoreInfo1.html.

● Website Design and Maintenance

- I have designed and maintained personal and non-profit websites over the past six years. The websites I have designed and maintained include Neoga Pole People Online (Neoga, IL) and Immaculate Conception Catholic Church in Mattoon, IL (2002-2006), as well as for the radio show that I did from 2004-2006 for experience

● Internet Surfing

- I surf the internet for a few reasons. First, I surf the internet to try to keep up with what is going on in the Broadcasting Industry (which seems to change on an almost daily basis). I also surf the internet to check out other websites to see how they are designed and to see how they use the latest in website design technology. The internet is also where I go to research information on news stories in addition to getting information on the news stories and the issues of the day for myself and for when I did my radio show, The Big B Zone.

● Shooting, Editing, Producing Videos

- I do it for three simple reasons. First, I do it for fun. second, I do it so I could keep my skills fresh and that those skills do not go to waste. third, it is something that I truly love do.

● Collecting Antiques

- I usually go by thrift stores (such as Second Hand Rose in Effingham, IL) and Resale Shops (such as Nearly New

Fashions Resale Shop in Effingham, IL) to look for antiques that I can get for next to nothing. I occasionally go to Antique and Craft Stores, yard and/or garage sales, or to auctions (general and estate auctions). Besides, you never know what you'll find when you go to these places (just watch Antiques Roadshow on PBS to see why).

- **Watching Certain Movies**

- I don't usually go to the theater. In fact, it is so rare that if I am seen going to a certain movie, chances are pretty good that it is a good movie (check out My Favorite Movies section on this web page for a list of some of my favorite movies).

- **Writing Commentaries**

- I have written commentaries to tell people what I think about various issues of the day that are of interest to me, including the Catholic Church and the War on Terror (including Iraq).

- **Watching Television**

- I watch Mostly News and Public Affairs Programs (I studied Broadcasting & Broadcast News in College and I have both an Associates Degree and a Bachelors Degree with academic concentrations related to Broadcasting). However...I do watch other Programs as well (check out My Favorite Radio & TV Programs section on this web page for a list of some of my favorite television and radio programs).
